

FOR IMMEDIATE RELEASE

GLOBALINX® ACQUIRES TMC COMMUNICATIONS

Rochester, NY (January 3, 2011) – GLOBALINX® Enterprises, LLC, today announced it has acquired California-based telecommunications company TMC Communications.

The acquisition allows GLOBALINX® to expand its commercial footprint, as well as offer a broader product and service portfolio. Established in 1997, TMC is a national telecommunications company providing a full range of voice, data and next generation telecom services to small, medium and large sized businesses across the country.

“This joining of forces means great things for customers, agents, resellers and employees of both organizations,” GLOBALINX® CEO Craig Jerabeck said. “This acquisition will enable GLOBALINX® to enhance its portfolio of robust product offerings in the marketplace.”

“The two companies share many of the same core values, including a commitment to selling through an independent sales channel as well as an entrepreneurial culture,” TMC President Ron Ireland said. “Not only will the founding spirit of TMC continue, but Agents will have a wider variety of well-priced products to offer.”

The organization will operate under the GLOBALINX® name and maintain an office in the Santa Barbara area. Current TMC agents will be retained and the terms of agent and customer contracts will not change. No other organizational changes are anticipated at this time.
